

January 23, 2019

Skating rink is open! Please refrain from walking on it unless it is frozen solid. Skating is at your own risk...no hockey games or speed-skating and please be courteous. It was cleared this afternoon (Wednesday.)

If you are interested in running for Village Board, nominating petitions are available at the Village office as well as on the wall outside the Village office. They need 30 signatures of registered RL voters and need to be turned in by February 13. Please see the Village clerk for details

There is a bin for the Malta Community Center Food Pantry outside the Village office. The need is greater than ever with the government shutdown.

Please keep in mind that our DPW equipment does not allow for fine adjustments as we are spreading salt. We have a large elevation difference between Rt. 9 and the Northway, and a lot of hills in the Village, and need to treat the roads accordingly.

Gary Putman

Mayor

Notes from the Tundra Jan 31, 2019

Reminder – please move your car from public (paved) lots within 24 hours after significant snowfall so that we can clear the lots. The ballfield and Zim Smith lots will be available to park.

The Village tree lights will be turned off this weekend, as we pass the midway point between the solstice and the equinox.

Speeding – I will be sending letters to local companies that have been identified as contributing to the problem, asking them to inform their employees that we will be stepping up enforcement of the speed limit. That may just mean me with my radar gun. The Sheriff has informed me that they can not give out information if we send him the license plate numbers, but that he is going to address this issue as he deploys the deputies.

Join us for the second Speakeasy, an evening of storytelling February 16th at 7 PM at the Community Center.

Stay warm.

The Mayor
